

Wayne State University Student Council
Your Voice ... Our Priority

Standing Committees:

Community Affairs

This committee has a mission to address the concerns of the student body including both those originating inside and outside Wayne State University.

Governmental Affairs

This committee is concerned with university, city, state, and federal politics. This includes proposing legislation to Student Council, advocating student positions to politicians and the University and working to bring political figures to campus.

Student Services

Studies and reviews recommendations concerning matters in the areas of supportive services within the University (Food services, Health Services, Bookstore, Public Safety, etc.). Their duties also include coordinating efforts with related University Committees, making recommendations on office space allocations for student organizations and making considerations and recommendations on any and all matters referred by the president.

Ad-Hoc Committees:

Athletic Committee

The Student Council Athletic Committee is dedicated to improve school spirit, morale, and participation at Wayne State University athletic events. This committee was created in conjunction with improving student life on campus. The overall intention is to make several adjustments to help students get more active in Wayne State athletic events; ranging from sponsored tailgates, to post game events on campus. Any students with passion and desire to better the university's athletics and are willing to help their institution is welcome to join.

Public Relations Committee

The primary objective of the Public Relations Committee is to promote Wayne State Student Council. This committee will work to build a stronger relationship between Student Council and the student body. In hopes to educate more people about how Student Council works and what it does. By doing this, it is our hope to attract more students to be involved in student government. The PRC also wants students to understand how to bring issues that they may have to Student Council. Students have the opportunity to address their concerns by attending committee meetings and/or Student Council meetings, by visiting with a representative during his/her office hours, or by submitting their concern in the suggestion box located on the Student Council website.

Student Center Committee

This committee was created to work on getting a 24-hours Student Center. In conjunction with implementation, students would have a place to go to study at late times of the night, have a place to go to hang out, and have food venues to go to during after hours. Overall, this would help both students living in the dorms and commuters for a place to go at night.
