Fall Semester, 2023

Bridging The Gap

With new leadership and opportunities this semester, the Student Senate has aimed to create a positive relationship between the student body and campus administration.

In September, the Senate invited President Espy to our General Body meeting to hear student concerns and learn about the efforts and goals of the Senate. Since the meeting, she has been very supportive and vocal with the Senate throughout this semester and we look forward to a continued partnership with her and her office.

As per our Mission Statement, we are committed "...bridging the gap between students, faculty, staff, and administration..." President Espy has helped to make this goal feasible with a student-centered drive.

We look forward to our continued partnership with administration and strive to continue pushing accountability from a student perspective.
