

**Wayne State University  
Student Senate**

*2017-2018 Academic Year*

*A statement of support for the Deferred Action for Childhood Arrivals (DACA) program and a reaffirmation of the Wayne State University Student Senate's commitment to diversity and inclusiveness.*

We, the members of the Wayne State University Student Senate, recognize and value the security and stability that DACA provides to its enrollees, as well as the access to educational opportunities. We remain committed to upholding the rights of all students in our community, and believe that every undocumented student deserves dignity, respect, and a chance to succeed in the United States and here at Wayne State. We believe in providing a safe environment for every individual to achieve their educational goals.

To undocumented students, dreamers, and DACA supporters in our Warrior community, know this: we stand in solidarity with you and we will fight alongside you to protect your right to an inclusive and unhindered education at Wayne State University. Below you will find signatures of Senators who support this message. Please do not hesitate to contact us.

Regards,

Nourhan Hamadi

WSU Student Senate President
